(BY DIRECT WIRE TO THE TIMES ) FORT DE FRANCE (Martinique) May 9 .- [Exclusive Dispatch.] Of 30,000 inhabitants of St. Pierre, it is thought that not WINDWARD GOVERNOR'S FEAR a single one escaped the terrible eruption of lava from Mount Peee, yesterday morning. Eighteen vessels in the harbor were all burned and sunk, and the total number of passengers and sailors rescued from them is thirty. All the rest are dead.

FRENCH CRUISER'S REPORT. BY THE NEW ASSOCIATED PRESS-A.M.)

ST. THOMAS, May 9, 9:35 a.m.—The French cruiser Suche rrived at Point-a-Pitre, Island of Guadaloupe, French West Indies, from Fort de France this morning, bringing several refugees She confirmed the report that the town of St. Pierre, Martinique, was entirely destroyed at 8 o'clock Thursday morning, by a volcanic eruption. It is supposed that most of the inhabitants of St. Pierre were killed; that the neighboring parishes were laid waste, and that the residue of the population of St. Pierre is without food

The commander of the Suchet reports that at 1 o'clock, Thursday, the entire town of St. Pierre was wrapped in flames. He endeavored to save about thirty persons, more or less burned, from the vessels in the harbor. His officers went ashore in small boats seeking for survivors, but were unable to penetrate the town. They saw heaps of bodies upon the wharves, and it is believed that not a single person resident in St. Pierre at the moment of the catastrophe escaped.

The Governor of the colony and his staff and wife were in St. Pierre, and probably perished. The extent of the catastrophe cannot be imagined. The captain of the British steamer Roddam was very seriously injured, and is now in the hospital at St. Lucia. All of his officers and engineers were killed or are dying. Nearly every member of the crew is dead. Surgeon Campbell and ten of the crew of the Roddam jumped overboard at St. Pierre, and were lost.

IBY THE NEW ASSOCIATED PRESS—A M.I.
SCRANTON (PA.) May 2.—The discussion which followed the reading of the replies of the operators, which was received at 11 o'clock, continued for an hour and a half, and is said to have been at times acrimonious.

District President Nichols and his associates from the upper coul fields insisted that nothing honorable remained to be done but to declare for a strike, and enforce the desires of the miners as expressed at the recent Shamokin convention. District Presidents Thomas Phey and Thomas Duffy, from the lower coal fields, who have all along opposed a strike, were equally as strenuous in presenting their views, which were diametrically opposed to those of Mr. Nichols.

The latter declared that to back down in the face of the repeated refusals of the operators to grant concessions, and more particularly after they had declined to arbitrate would be a confession that the United Mine Workers of America were powerless to enforce the demands which had been made.

Presidents Fahey and Duffy answered that the present was an inopportune time to strike, that the organisation had numerous fights on its hands in the West and South. They also urged

These three demands are considered the most important of those included in the scale, and the miners of district No. 1 have repeatedly expressed their willingness to strike at any time for the last-named concession.

President Mitchell's proposition, which was rejected today, was that the differences between the miners and the operators should be submitted to an impartial board of arbitration to be chosen by the industrial department of the National Civic Federation.

FOR SOUL OF CORRIGAN,

The funeral escort was composed of the Light Battery of United States Artillery, commanded by Capt. Foote, and drawn from Fort Myer; the naval cadets from Annapolis, 247 strong, a corps that never has paraded in Washington before save on several occasions when a President was to be inaugurated; a battalion of blue jackets from the North Atlantic Squadron, of the several occasions when a President was to be inaugurated; as battalion of blue jackets from the North Atlantic Squadron, of the several occasions when a President was to be inaugurated; as battalion of blue jackets from the North Atlantic Squadron, of the several occasions when a President was to be inaugurated; as battalion of blue jackets from the North Atlantic Squadron, of the several occasions when a President was to be inaugurated. which Rear-Admiral Sampson was for

captains, or so many of them as are in the United States, and in addition there were Admiral Remey, Admiral Watson, Admiral Watson, Admiral Watson, and wore beared with the left of the full uniforms, and wore black sword knots of crepe.

As the casket, which was closely covered with the blue field of the American flag, and banked with crimmon roses, was gently laid upon the bler from the shoulders of the blue jackets, the male quarette sang "Laad, Kindly Light." Meanwhile, the mourners, the family of the deceased, save Mrs. Sampson, who was too ill to attend, were seated. Then followed the service, very simple, in fact, little more than the funeral ritual of the Presbyterian Church. As the benediction was delivered the body-bearers took up their burden, and, followed by the family of the deceased, the President and his Cabinet, diplomatic body and many notable personages, the remains were carried out of the church and placed on a hearse. A bugie note gave the signal for the march, and soon the entire long funeral procession was on its way to Arlington.

The procession to Arlington lay through the western section of the city and historic Georgetown, whence, after crossing the aqueduct bridge it went by way of Fort Myer to the cemetery. The weather was exceptionally fine, and crowds of people, approximating between 40,000 and 45,000, thronged through the streets and gathered about the grounds at Arlington.

TACOMA. May 9.—(Exclusive Dispatch.] Lumber and shingle manufacturers met today and perfected a local organization for the purpose of advancing and maintaining prices of mill products. Brisk competition in the local market has caused widespread price-cutting, with the result that manufacturers claim to have been making no profits for months past. Cutting on lumber, and shingles has resulted in selling lumber grades Nos. 1, 2 and 3 for 33 less per thousand feet than wholesale prices. The new organization will advance the price of all mill products in the local market to wholesale prices, with an additional charge to cover cartage from the mills. Capt. BRIEF COAST DISPATCHES.

TUOLUMNE, May 9.—John Ballard and W. H. Martin, partners of Capt. W. A. Nevills in the famous Rawhide and App mine, whose sensational litigation is a matter of record, have decided to enter this county again and operate. They will open up the New Albany mine, closed for years on account of litigation. They bonded the Lady Washington mine from Maj. Hooper of San Francisco, and will operate the two properties, putting up a big stamp mill. They have also bonded from Baker Bros. of this place the extension of the famous Dead Horse mine, owned by Hobart & Haywards, now producing richly.

Stabbed Herself With Hatpin,

TUOLUMNE, May 9.—Because she quarreled with her husband, Mrs. L. Oliver locked herself in a room late yesterday afternoon and stabbed herself in the left breast with a rusty hat pin six inches long. The steel just missed the heart, but her life is in danger from inflammation. The pin was found stöcking in her breast when the door was broken in.

A. Butts of this city reports that to-gether with John Hays Hammond of San Francisco and London, and F. W., Baker of the Ventura Corporation, Limited, of London, he had succeeded in floating the Camp Bird mine of Colorado for the sum of \$6,000,000.

SAN FRANCISCO, May 9.—John York, aged \$2 years, formerly a school teacher, made an unsuccessful attempt to asphyxiate himself by inhaling gas today. Despondency was the cause. Two weeks ago, he and his wife came to this city from Stockton, where they had lived for many years.

TURNER CORKSCREWS O'BRIEN. BY THE NEW ASSOCIATED PRESS\_P M SACRAMENTO, May 9.-The figh between Rufe Turner and Jack O'Brien tonight was a lop-sided and tame ex-hibition. Turner had O'Brien at his hibition. Turner had O'Brien at his mercy at every stage of the game, and could have got him in any round. O'Brien made no showing, did not land a telling blow during the argument, and was on Queer street half of the time. The end came early in the ninth, when Turner put a half-arm right joit to the chin and threw the left under to the same mark, dropping his man in corkscrew shape. (BY DIRECT WIRE TO THE TIMES,) WASHINGTON, May 9.—[Exclusive dispatch.] Senator Bard, Senator Per-lins. Representative McLachian and Dispatch.] Senator Bard, Senator Perkins. Representative McLachian and Representative Needham will all appear before the Senate Public Buildings and Grounds Committee tomorrow, asking larger appropriations for all three California building appropriations. Senator Perkins will especially represent Saff Francisco's request; Needham will try to get another \$28,000 for Fresno, for which an amendment was offered in the Senate by Senator Bard today, and Bard and McLachian will see what can be done toward convincing this Senate committee that Uncle Sam does some business in postage stamps at Los Angeles.

It was not the intention of the committee to grant hearings at all, but the pressure from California got pretty hot today, so the members concluded they would let that State in, any way.

The committee had its first meeting upon the bill today, and there took place while the committee was in executive session a long discussion about California public buildings. But Senator Warren of Wyoming, who is a member of the committee, and has western blood in his veins, wanted to know what if California got more than New York. Warren proved a first-rate champion for California, according to other Senators who were there, and insisted that two important propositions for two big important propositions for two big cities like Los Angeles and San Fran-cisco ought to be considered upon their merits, without regard to what any other State is getting.

Mr. Lacey of Iowa favored the amendment. He was opposed to any more "rotten boroughs." He referred to the State of Delaware, where, he said, the president of a gas company had to be consuited when a Senator was to be elected. Lacey said that the bill was in the interest of Arizona. He did not want another Nevada in the American Union. Consolidated, he predicted that New Mexico and Arizona would make a grand State.

Mr. Rodey, Delegate from New Mexico, and Mr. Smith, Delegate from Arizona, both protested strenuously against the joining of the two Territories. The former said it required thirty-six hours to travel from the center of New Mexico to the capital of Arizona. If the amendment was adopted, he said, the bill would be killed.

It is the greatest event in the history of the island. For two years prior to the outbreak of 1812 the earth had been disturbed by great convulsions all about the southern shores of the Carib-bean Sea. March 26, 1812, the Venesue-lan coast was savagely shaken, and the city of Caracas was knocked into

the city of Caracas was knocked into a heap of ruins, in which from 10,000 to 12,000 persons were killed. From Caracas the terrific subterra-nean forces moved seaward, following the line of least resistance, and seek-ing an outlet which they at last found ture appointment.

SUNSET TELEPHONE COMPANY.

San Francisco, May 7th, 1902. To the People of Los Angeles and Adjoining Counties:—A year ago I assumed control of several Bell Telephone Companies covering the states of Ohio, Indiana. Illinois and Iowa, containing about 13 million people and within which there have been installed more opposition telephone companies than in any other portion of the United States. These companies are located in cities and towns of all sizes and are connected with a complete system of long-distance lines. Much of the construction, being now five or six years old, is going to wreck

and the owners are learning something of the depreciation of tele-

phone installations and cost of maintenance.

As a warning to the people of Los Angeles and adjoining counties I state emphatically over my own signature that with all the millions of dollars that have been expended in these opposion telephone companies in the territory which I have mentioned, no investors have ever made money, and in 9 cases out of 10 they have suffered a total loss. The promoters and the construction companies have made money, and to them alone, and not to the public, has any benefit accrued, and I do not hesitate to say that throughout the Eastern district which I now represent four-fifths of the merchants are radically opposed to two telephone companies in the same city.

Many of the first Eastern opposition telephone companies were started in good faith on honest principles, but of late years the business has fallen into the hands of men who have handled their schemes with as little chance of profit to investors as the "wild cat"

mining ventures of the early territories. The East is about "worked out" for these people and they are

seeking new districts where their methods are unknown. I have no hesitancy in saying that not one dollar of the "Construction Company" or Eastern money would go into the Los Angeles opposition telephone scheme were the promoters not confident they would later be able to unload on the Los Angeles public. This has been their invariable method, and a comparatively small original investment brings them a large eventual return.

Los Angeles has had a very rapid growth and it requires so much time to manufacture telephone mechanism that the city is now a little ahead of us. We have, however, just completed one building and have another very large structure for an operating department almost finished, which will enable us to meet the requirements of the city for years to come, and give as good telephone service as can be obtained.

The opposition telephone company in Los Angeles may cause the Sunset Company to lose some money, but no Los Angeles man who puts money into the enterprise will ever reap any benefit therefrom, and will most assuredly lose his investment.

## LETTER TOYOUNG LADIES

From the Treasurer of the Young People's Christian Temperance Association.

Miss Elizabeth Caine, Fond du Lac, Wis.

The advent of womanhood is fraught with dangers which even careful mothers too often neglect. Some of the dangers are belated and suppressed menstruation. "The lily droops on its stem and dies before its beauty is unfolded." It is well demonstrated in Miss Caine's letter that Lydia E. Pinkham's Vegetable Compound is certain to assist nature to perform her regular duties, and young women who are irregular, or have any ailment peculiar to their sex should hasten to commence the use of Lydia E. Pinkham's Vegetable Compound, and then sit down and write a letter to Mrs. Pinkham telling her all about their illness; she will give the case careful and motherly consideration, and advise just what to do toget well; she considers such letters strictly confidential; she will charge nothing, and thousands of young women owe their present health and happiness to her advice.

Mrs. Pinkham invites all young women who are ill to write

Mrs. Pinkham invites all young women who are ill to write her for advice. Address Lynn, Mass., giving full particulars.

MISS ELIZABETH CAINE.

"DEAR MRS. PINKHAM:—I want to tell you and all the young ladies of the country, how grateful I am to you for the benefits I have received from using Lydia E. Pinkham's Vegetable Compound. I suffered for eight months from suppressed menstruation, and it affected my entire system until I became weak and debilitated, and at times felt that I had a hundred aches in as many places. I only used the Compound for a few weeks, but it wrought a change in me which I felt from the very beginning. I have been very regular since, have no pains, and find that my entire body is as if it was renewed. I gladly recommend Lydia E. Pinkham's Vegetable Compound to everybody."—Miss Elizabeth Caine, 69 W. Division St., Fond du Lac, Wis.

When the young girl's thoughts become sluggish when she experi-

When the young girl's thoughts become sluggish, when she experiences beadsches, dizzness, faintness, and exhibits an abnormal disposition to sleep, pains in the back and lower limbs, eyes dim, desire for solitude, and a dislike for the society of other girls, when she is a mystery to herself and friends, then the mother should go to her aid promptly. At such a time the greatest aid to nature is Lydia E. Pinkham's Vegetable Compound. It prepares the young system for the coming change, and is the surest reliance for woman's ills of every nature.

When you ask for Mrs. Pinkham's medicine at your druggist, do not be persuaded to take something else said to be "just as good." Nothing in the world is so good for women's ills.

OPENING CONGRESS LODE.

ISPECIAL CORRESPONDENCE OF THE TIMES.)

PRESCOTT (Ariz.) May 8.—Development work has been in progress sixty days on 'an extension of the noted Congress lode, lately sold through Charles H. Akers to Woodward, Hooker & Keeney of New York. About 450 feet of development work has been done already, 130 feet of it being an inclined shaft, at the bottom of which ten feet of ore body is exposed. The ore is low grade, but it is believed it can be concentrated and reduced wth a large margin of profit.

James Colquhoun, manager of the immense works of the Arizona Copper Company at Clifton, has resigned the place he has held ever since the organization of the present company, and will return to Scotland, probably to take the presidency of the corporation. He will be succeeded by Alexander Veitch, who has been assistant superintendent for several years. With Mr. Colquhoun will retire Paul Nicholas, who has been mining superintendent of reseveral years. With Mr. Colquhoun will retire Paul Nicholas, who has been mining superintendent of the Arizona Copper Company almost since its organization. Mr. Nicholas and wife will probably make their home in Missouri in the future. As an expression of the esteem in which they are held in Clifton, they were tendered a reception, at which they were presented with a magnificent set of silver plate.

Thirty miles southwest of Tucson, in the Tortilitas range, Hamilton & Mokely have found a ledge of wonderfully rich copper ore, fourteen feet wide, in granite and lime contacts. From shallow workings, a twenty-five-pound specimen of native copper has been dug up and brought to Tucson for exhibiton.

A large body of high-grade ore has been struck on the 250-foot level of the Melba Mining Company, near Harkshaw.

A ten-foot ledge of free-milling ore has been found about ten miles northeast of Nogales on property owned by Wallace Woods, George Morris, Arthur Moody and Chris Wilson. The ore is said to be fairly studded with flecks of gold.

It is reported that Dr. W. F. Chenoweth has refused \$100,000 for his interest in the Cerro Prieto mines near Magdalena, Sonora.

Near Globe in ambitious project is that of W. H. Mercer, who has started a tunnel intended to be nearly three miles long, cutting mineral ground known to be wonderfully rich in copper and gold. Already a number of small copper veins have been developed.

Tonight at 8 o'clock in the Woman's Club House, on Figueroa street, Mr. Lummis will speak along the same line upon which he addressed the federation meeting in Simpson Auditorium on Wednesday night, and will exhibit more of the stereoption sildes of the Southern California missions. He is having some new sildes made. The entertainment will be under the auspices of the Landmarks Club, which has done such effective work in the preservation of the historic mission buildings, and is endeavoring to enlarge its scope, so that all the picturesque landmarks may be saved. The evening was planned by local club women as a continuation of the Biennial programme, as the subject is one of great interest to all visiting women, of whom there are many still in the city.

BURBANK. Florence Roberts made "Camille" very near and real to a large audience at the Burbank last evening. It was her first playing of the character here, and drew a houseful, in contrast to the sparse attendance her "Sapho" has had this week.

It is the custom to deride the sugary passion of "Camille," but the woman's salutary sun of smiles and suffering scems to be a balm for many. The audiences are always largely women for this new-old play, and they cry plentifully. Camille gets the complete sympathy of her sex, which is denied in its fullness to every other stage courtesan. It is in securing that sympathy that Miss Roberts is most successful, because she dwells on the sweet, womanly qualities, restraining her emotion from over-reaching itself in the artificial situation. Only in the climax of the fourth act, in her forced declaration of love for Armand, does she lose the master spell of power, which is calmness, and which she so effectively maintains elsewhere. It is the one fault to be noted in a symmetrical performance.

Then the bees swooped down. Three or four of them lit on the knob of his upturned nose, which looked like a blushing rose, like as not full of honey. It took several deep insertions of the extracting tubes to bring the sieeper back to life, but when he did come to there was a-pienty doing. The pain made him almost crasy, and, fighting off the attacking swarm, he rushed out and through the halis callink for help. BIG PROFIT FOR SYNDICATE.

NEW YORK, May 9.—The syndicate formed to underwrite the stock issue of the New Metropolitan Securities Company, capitalized at \$30,000,000, has completed its work, with a good-sized profit to those who were in it. The amount of shares which were opened for subscription to the stock-holders of the Metropolitan Street Railway Company and not subscribed for is small. The stock not subscribed for has been sold for the account of the syndicate. The bankers refused, however, to disclose the amount or basis of the profits.

Jevne's Good Candies.

The candy department is one of the growing departments of our store. And the reason it grows so fast is because the candles are so good, so fresh, so pure. We only know how to make candles one way at our store—the best. We never get careless and let impurities or stale ingredients slip in. Just the very best candles that are made—that's the business of this candy store. That we succeed in doing it this way every piece of candy will testify.

This is the church's first onset with the civil power. Herod proposes to show them that they are not in the hands of religious authorities this time. But God is guiding this divine history. Meantime, the whole church was continuing prayer, but in small groups, for they must be cautious in conduct as well as earnest in prayer. The featival was about passed; one night more and then Herod will inflame the passions of the mob with a bloody sight. The last night is passing, and yet no answer is given to their prayers; but atill they pray, for that is what they must do, as the children of their great Father, and that will bring some benefit from the awful calamity, even if it does not save Feter. Those that pray are allied to heaven's power, and they need not fear. Peter is sleeping, even in an uncomfortable position, either hand-bound to a soldler, and knowing that his death is appointed for the next day.

mandals.' And he did so. And he saith unto him, 'Cast thy garment about thee and follow me.' And he went out and followed; and he wist not that it was true, which was done by the angel, but thought he saw a vision. And when they were past the first and second ward, they came unto the fron gate that leadeth to the city; which opened to them of its own accord; and they went out and passed on through one street; and straightway the angel departed from him. And when Peter was come to himself, he said, 'Now I know of a truth, that the Lord hath sent forth His angel and delivered me eut of the hand of Herod, and from all the expectation of the people of the Jawa.'"

ity or only a dream, so strange did it all seem to Peter, just wakened out of sleep.

The guards standing and looking at them saw nothing as the two passed, because the angel had made Feter and himself invisible, or had flung a vell over their eyes. They heard nothing as the bolts moved back, and the hingest turned, for there was not a sound, the Omnipotent God was doing if.

The angel gave him only the help that he needed, and only as long as he needed it, requiring Peter to do everything that was in his power to do, and then putting him on his own resources entirely, when those resources were adequate. That is God's way.

By this time Peter had recovered from his confusion of mind, and his divided consciousness. He saw that God had achieved another triumph in behalf of his people. He had always defeated the religious powers, and now "Herod," as well as the Jews is whipped. A few hours more and they would have done what they expected; they had planned and they had confident expectations. But they are fighting God—and with the usual result.

In order to secure this result the Horticultural Commissioners of Los Angeles county last summer called to their assistance the nurserymen and florists of the county. An organization was formed with one of its chief objects the eradication of scale from the tree and plant stock of the corrigor. The nurserymen and dealers backed up the work of the commission and all together the improve ment has been made possible. It has been long, hard slege in which every force at command has been engaged, and if the improved condition is as marked as Mr. Ross indicates, the tree propagators are entitled to the honors and profits thereof. The inspectors of this county are certainly doing their duty, for Commissioner Curtis of San Bernardino says he has received but two or three lots of infected trees from Los Angeles county during the last twelve months. Secretary Budiong of the Riverside commission said at the last meeting of the association that only two or three lots of infected trees from this territory had come under his observation during the year. The Nurserymen and Florists' Association has rendered great assistance in this work.

To Study Walnut Disease.

An interesting piece of agricultural news comes from Orange county this week. It is that Prof. N. B. Pierce, the governmental pathologist, has pure to be used as a scientific experimental station. Prof. Pierce has for years been giving his attention to bacterial diseases as they affect plant life, and the first to receive his attention at the new station will be the walnut discase. A portion of, the land will be planted to walnuts, from which point of vantage the professor and his assistants may work out some valuable discoveries and profitable experience.

Prof. Pierce is also planting two or three acres of resistant grape vines from which to study the liability of these vines to the "mysterious grape disease" which depleted or destroyed hundreds of vineyards from its besinning near Anaheim eighteen years ago. It has not been thought heretofore that phylloxera risistant vines were more resistant to the California wine disease than the natural roots of the vitis vinifera, or California grape. difficult matter so far, on account of the tendency of the ground surface to bake, but once established, there is no question of its success. Sub-irrigation or furrow irrigation may have to be adopted in starting alfalfa, but whatever difficulties are encountered the certainty of heavy crops upon established fields will make the work of first planting extensive, and in time entirely feasible. This is the toughest problem the farmers have met, but there are half a dozen methods of overcoming the difficulties already in vogue. At present the outlook is bright for the Imperial lands, and unless the alkali "comes up" the New River country will eclipse the greatest farm-

"Month after month, year after year, the agricultural papers and poultry journals of the country have urged shippers, to send their fruits, vegetables, stock and poultry to the markets in good condition, and in clean, attractive packages, if they would sell readily and receive good prices. So long as there is any sale for them at any price, there will be careless shippers, of poor stuff in dirty, disgusting packages. It is to be hoped that the day will soon come when such shipments will be entirely crowded out of the markets by fine farm products, stock, and poultry, shipped in such an attractive manner as to command ready sales and good prices."

Collar Bone Broken.

William McGonigle, a teamster in the employ of Shattuck & Desmond, ell from a horse yesterday and broke als collar bone on the left side. He was treated at the Receiving Hospital.

The following grave question was decided in the affirmative at the High School Congress yesterday: "Resolved, that arbitration should supersede war smong civilised nations." The affirmative was argued by Henry Hubbard and Miss Smith, the negative by Miss Marie Metcalf and Mr. Hawley.

The special exhibit of the Art Association at the galleries, No. 614 South Hill street, has drawn a continuous stream of visitors all week, and it has been decided to continue the free exhibition during next week. Many eastern artists expressed themselves as highly pleased with the work and its artistic surroundings.

Alexander Cooper, the first convert of Francis Murphy at Pittsburgh, Pa., addressed a packed house at Volunteers' Hall last night, and a dozen or more men signed the piedge. He will deliver an address on "The Bright Side of Life," in Temperance Temple at 4 o'clock Sunday afternoon. He has been holding meetings in Pasadena.

Charles Campbell, the well-known traveling man, was voted the most popular Mason in the city, at the Masonic Fair, last night; and he was made doubly happy last evening by the announcement of the birth of a bouncing baby boy to his daughter, Mrs. Alfred E. Adams of No. 1421 West Eleventh street.

Order from Austria.

Another Los Angeles "infant industry" has been honored abroad, the California Home Food Company, a small concern of this city, having received a heavy order from physicians in the employ of the Austrian government at Vienna. This was done, too, in competition with the old and well-established food companies in the East.

The Woman's Club and the Santa Clara Valley Improvement Club, both of San José, have united in an invitation to the club women to visit that city en route to San Francisco. A large number of the ladies have signified their intention of accepting the invitation. All visitors will be entertained by the ladies of San José and taken to visit the famous Lick Observatory.

The Cliff Dwellers.

"The People of the Pueblos," an illustrated lecture, given last night, in Blanchard Hall by Mrs. Gilbert McClurg of Denver, was of much historical interest. The attendance was not what the importance of the subject and the excellence of the pictures deserved. The lecture was devoted to researches among the prehistoric cliff dwellings of Colorado, showing the habitations, the people, and specimens of their handisork in pottery."

Davis Recovering.

Davia Recovering.

Harry Davis, the employé of the Simons Brick Company who attempted to commit suicide early yesterday morning by cutting his throat with a rasor, was removed yesterday to the County Hospital from the Receiving Hospital, after five stitches had been taken in his neck. He was suffering from "jimjams," and in the hope of escaping an unseen foe, who he said was trying to kill him with a shotgun, Davis slashed his throat with a rasor.

UNIONISTS' FOLLY.

Schoolmasters' Club Points it Out-Ridiculous Attempt to Break up Course of Study in Schools.

The whine of labor unionists, who have lately tried to disrupt the course of study in the public schools of the city by demanding that the book known as "Dole's American Citizen" known as "Dole's American Citizen" be stricken from the list, was openly disapproved last night by the School-masters' Club of Los Angeles. The club held a meeting in the Board of Education headquarters in the Laughlin building, especially to discuss whether from a fair and reasonable standpoint the book in question is suitable for American children to study. After two hours' discussion, before a full meeting, it was the practically unanimous decision that the textbook should remain in the course of study of the eighth grade. The objections of the socialistic agitators were found to be lacking in force and reason.

of Bakersfield's carnival week. It was Eagles' and Mardi Gras Day, and marked the height of the carnival period. The street fair is being held under the auspices of Aerie No. 33 of the Fraternal Order of Eagles, which comprises most of the business men and good fellows in Bakersfield. The Eagles are a fraternity similar to the Elks. The latter had their big doings at the street fair on Wednesday of this week. Their celebration took the form of a circus parade after the pattern of the Elks' parade in Los Angeles on the opening day of the recent Fleata. The Bakersfield Elks were not behind their Los Angeles brethren in Fleata. The Bakerefield Elks were not behind their Los Angeles brethren in furnishing a variety of novel entertainment. In numbers only were they lacking; still they had a parade three-quarters of a mile long, which was the most mirth-provoking event that ever happened in Bakersfield, until yesterday, when the Eagles had their innings.

day, when the Eagles had their innings.

The Eagles' parade in the afternoon contained five floats symbolical of the principles of the order: also a number of other unique features, but the real fun did not begin until last night, when the Mardi Gras parade took place and the reign of King Rex began. This parade was made up of grotesque characters and floats, each one of which was ludicrous enough to provoke sidespiltting laughter.

The procession of monstrosities was reviewed by Timothy, Rex I, King of Funiand, Froliciand and Oil Land, and Frince of Good Fellows, impersonated by Col. Tim Spellacy, one of Bakersheld's leading oil magnates, who quite sustained his reputation as a wit and fun maker of the first degree.

Rex's court consisted of the following well-known citizens of Bakersfield: Prime Minister and Knight of the Royal Collar. H. P. Bender: Lord High Chancellor, J. A. In explanation of the discrepancy.

"Uncle Billy" states that he was kept constantly on the move by direction of the City Attorney, who did not wish him to remain in Washington, for fear that the Commercial Investment Company and the Trowbridge-Niver Company would serve papers on him that would involve the water bonds in litigation. He was first sent to Washington and then to Boston, and after a conference between Dillon & Hubbard and the City Attorney, he again went to Washington. He was required to keep out of New York, and yet within easy reaching distance of the metropolis.

keep out of New York, and yet within easy reaching distance of the metropolis.

In traveling about "Uncle Billy" was compelled to spend more money than would have been required had he remained in New York. In Washington, especially, he found the cost of living very high. In the hope of furthering the interests of the city "Uncle Billy" says he personally visited Chairman Burton of the Rivers and Harbors Committee and other Representatives and Senators to elicit their support for a large harbor appropriation. He also urged the necessity for an appropriation for a new postoffice in Los Angeles. This campaigning "Uncle Billy" found somewhat expensive.

"Why, sir, my God! I had to keep up the reputation of the town," declared "Uncle Billy" resterday. "I couldn't go around with those man and be entertained and not reciprocate. My God, sir! I couldn't, sir; could !? And how the Council says I was extravagant. Why, sir, when we went to New York and going to a second-class hotel. I wanted to go to the Waldorf-Astoria, where we should have gone, but for fear of something like this. City Attorney Mathews advised going to the Hoffman House, sir. No, sir, we didn't go to a \$25 a day hotel, and now, sir, I think the Council might better kick, sir, because we went to a second-class hotel, sir, I do really, And, my God, sir, some of those Council might better kick, sir, because we went to a second-class hotel, sir, I do really, And, my God, sir, some of those Council might better kick, sir, because we went to a second-class hotel, sir, I do really, And, my God, sir, some of those Council might better kick, sir, because we went to a second-class hotel, sir, I do really, And, my God, sir, some of those Council might better kick, sir, because we went to a second-class hotel, sir, I do really. And, my God, sir, some of those Council might better kick, sir, because we went to a second-class hotel, sir, I do really. That's what I think, sir."

"Uncle Billy" continued by declaring that 120,000 back to those companies at the bung. Ye

tation of the West, and more particularly Los Angeles, for hospitality and liberality. The 3400 came out of his own pocket and went for cigars, treats and the like. What makes the City Treasurer feel particularly put out is that he wanted to come home all the time, and did his best to get away. Instead the attorneys kept him jumping up and down the Atlantic senboard to keep him away from possible court proceedings. Through his letters of credit to the Mercantile Trust Company he saved the city \$150 by securing a vault for the storage of the water bonds without cost.

"It was at my request that the City Treasurer went to Boston and to Washington," declared the City Attorney yesterday. "Naturally his expenses were greater than mine. I declined to approve the demand when it was submitted to me on the ground that I had nothing to do with the matter, and was not informed of the expenses incurred by the City Treasurer. It is a matter between him and the Council."

If the Finance Committee persists in its attitude there may be some interesting developments at the City Hall. It is possible that a compromise stay be effected whereby the expenses of the city officials and the costs incurred by finding a second purchaser for the water bonds will be deducted from the \$20,000 deposit, and the balance returned to the companies who posted the mount is forfelted to the municipality.

Indian Pete, the fat Cahuilla buck who was accused of throwing his wife under the wheels of a moving train, was let out of jail yesterday. There wasn't evidence enough to convict him of spitting on the sidewalk, much less murder.

Idin't have an idea wast he was taking about.

Now wasn't that aggravating? The younger Yoakims went on the stand yesterday and swore that the old man carried a prehistory in one hand, and reached back to his hip pocket in The jury returned a verdict of not guilty in their case.

tice Austin's court yesterday as a tactful thing to have interfered when the son and the daughter-in-law and the step-grandson held a family requion and beat old man Yoakim with a club. They were all three on trial for battery, but were acquitted.
Yoakim is a bent old man, who has a ranch on Compton avenue in Vernon. His son, Frank Yoakim, has a place adjoining. They have little love spats over the water rights.

Late in a night of recent date two of the neighbors rode by and saw Frank Yoakim and his wife sitting out by a water ditch with a lamp and blankets, keeping a chilly guard.

Fresently the little stepson was sent into the house, and came out with another lamp and a club.

The old man came across from his place and accused them of turning off the water. The neighbor saw him start away, and then heard Mrs. Yoakim's voice reproaching her husband for letting the old man turn on the water.

Then there were forms moving in the lamplight.

"There were a couple of whacks that sounded like somebody beating an old carpet," said a witness, "and then I heard the old man howing bloody murder. He said he was ready to die, and Frank said he was too."

Shortly after that there was another fracas in another part of the ranch.

The old man Yoakim had a man working for him named Moore.

Moore was deaf. Frank Yoakim.

"Hey?" asked Moore wouldn't hear.

"Til fix you," said Yoakim.

"Hey?" asked Moore mildly.

"I'll fix you," said Yoakim.

"Hey?" asked Moore mildly.

"On yes," said Moore, smilingly. He didn't have an idea what he was talking about.

Now wasn't that aggravating?

The younger Yoakims went on the

NINE WOMEN INJURED IN TALLYHO WRECK.

SERIOUS ACCIDENT IN REDLANDS YESTERDAY AFTERNOON.

Jewell of Philadelphia and Miss Jones of Saratoga Most Seriously Hurt-Mrs. Hibbert Nearly Killed.

REDLANDS, May 3.—On England Heights, one of the show places of Redlands, a terrible accident occurred this afternoon, in which nine women this afternoon, in which nine women were seriously injured, some of them perhaps fatally. A tallyho containing a mixed party consisting of ten women and two men, with driver, was wrecked just as they had left the park. The brake broke and the four horses started on a wild race down the mountain side. Coming into Cajon street, the main thoroughfare of the city, a mile above town, at a sharp turn in the road, the vehicle struck the street railroad track, and was overturned, and all the occupants were thrown violently to the ground.

Santa Barbara County Growers Happy Over the Advance and Rush-Jose Lawrence, Driven Insane by Lawsuit, Killed by Anguish.

SANTA MARIA. May 9 .- After a dissatious decline in the price of small white beans, resulting from low prices for Michigan beans and consequent lack of orders for California stock, lolack of orders for California stock, lo-cal growers are happy once more to note a sharp advance. During the early part of April prices declined from \$2.15 per hundredweight to \$1.85, Lo.b. Guadalupe. At the latter price the California dealers were able to ship beans to the East in large quantities and compete with Michigan prices, and and compete with Michigan prices, and the consequence was that when the Michigan market improved, about April 15, a heavy demand was created, and California dealers were quick to seize the opportunity to get hold of all the small white beans possible to fill orders for the East. All of 20,000 sacks of white beans left Guadalupe during the past ten days, and the prospects. of white beans left Guadatupe during the past ten days, and the prospects are good for a similar amount being sold in a very short time. Beet planting for the Chino sugar factory is practically completed. The field reports show that there were planted up to last Saturday night 10,631 acres. There is now a good stand on 9000 acres, and 4800 acres have been thinned. There is a shortage of thinners here, although no, beets have suffered so far. No irrigation, has been resorted to, nor is it expected that it will be. The crop is growing vigorously and the factory management is preparing for a big campaign, confidently expecting to have 100,000 tons of beets to work up.

FULLERTON.

FULLERTON, May 9.—Bees continue to swarm and settle down in all portions of Northern Orange county. A local planing mill is receiving daily orders for hives, one resident alone having captured over fifty stray swarms. A tramp swarm has located in the front of the Pamperl building, almost in the business center of Anaheim, and the buzzers made it very interesting for a smart Los Angeles drummer a few days ago, because he was foolish enough to undertake to fight the new settlers.

ELECTRIC ROADS.

ELECTRIC ROADS. . Capt. M. P. Thatcher of the Santa Clara Valley Electric Road and Power Company is in Los Angeles in the interest of the company. Before he left he admitted that he had taken contracts to haul to the sugar factory along the proposed road from Hueneme 65,790 tons of sugar beets, at about 45 cents per ton, or 130,565 for beets alone, on condition that the road be in running order by August 1. Were it possible to build the road this year in every direction, the probabilities indicate a total tonnage of 240,000 tons, two-thirds of which the growers are anxious to ship by electric railway, and the figures would run up to at least 375,000.

375,000.

It has been the aim of Capt. Thatcher to do as much as possible with local capital, but now, having about reached the limit here, outside capital will probably be secured for the balance; and the road pushed to completion, to meet the great demand for removal of grain freights, and the immense bean crop which is seeking an outlet by the sea. McGinty is roaring like a goaded

McGinty is roaring like a goaded porker. He didn't have a sign of a good time away from his quiet domicile. Somebody forgot to take his hat off to McGinty, pernaps.

McGinty dipped his quill in vitriot and turned himself altogether loose in the San Diegan-Sun, tryng to "burn up" the Elks, the hotels, the Fiesta, the people, and everything else in Los Angeles that didn't fail at the feet of McGinty.

It is a touching tale of sorrow that

It is a touching tale of sorrow that McGinty rips out between his clenched teeth. It takes two columns to hold it.

He complains bitterly, nay, piteously, that the San Diegan Elka were not met at La Grande Station by the Los Angeles lodge and escorted to a great feast; that they had to look out for rooms for themselves at the hotels, and that the house was crowded at the minstrel show.

These be scathing charges!

McGinty saith, further, that the Elka's parade was "rotten" and filled iwht hoodlums (McGinty was in it,) and that at night the rowdies were running the town, throwing dough on people, and stabbing them in the hats with sundry weapons.

Poor McGinty sees not at all, or he sees things that are not! He is afficted, perhaps, with bay'n climate.

The other San Diego Elks, and everybody else in Los Angeles for La Fiesta had a good time. The San Diego City Guard Band (it's a good one) was so delighted that it screnaded the press, and the visitors generally were warm in praise of the hospitality accorded them.

Not so McGinty. He is not thoroughly appreciative. He is glum and weary. He would make others weary if taken seriously.

Speaking of McGinty's far-away yelps, John G. Mott, exalted ruler of the Los Angeles lodge of Elks, said:

"In the first place, he doesn't seem to want to tell the truth, and he has made no allowanices for the unusual conditions that 'prevailed. We did everything we could for those Elks. We gave them lunch of cold meats and plenty to drink—everything but whisky, and maybe that is what makes him sore. Plamiy, his bile has gone to his head. Why, we gave the minstrel show a second time principally for the San Diegoans that did not get in the 'itrst night. We sent at our expense a lot of them to the show at the Burbank, and we took the ladies of the party and some of the men to the races Saturday. Most of our Elks are business men, who couldn't devote all their time to entertaining visitors, but there was a committee always looking out for them. We will carry up this matter and see how

The Times has received a number of complaints from Orange county people who say they were fooled by a man and a woman claiming to represent a Los Angeles morning newspaper. These solicitors, it is alleged, promised all sorts of "write-ups" in return for subscriptions or cash, but failed to deliver the goods and disgusted their victims. The complainants say that the "puffs" were not what were promised, but smacked too strongly of patent-medicine style and that some undesirable subjects were classified with leading citizens, making the latter look like small potatoes. The whole scheme proved a source of humiliation to those who paid to be "puffed."

WIRELESS TELEGRAPH.
Richard Shoemaker and Lawson Giddings signalled each other last night by wireless telegraph of their own invention, from Santa Ana to Pasadena, a distance of about thirty miles. This is a great triumph for the boys, who are students of Throop Institute, and have perfected a system, somewhat similar to that of Marconi, though different in some features. They have been working on it for a long time, and have been increasing the distance of messages a mile or so at a time. The message which was sent by Giddings at Santa Ana to Shoemaker here was, "Working all right." Shoemaker returned the message successfully.

Some of the richest people who were in the hotel last winter, hailed from Philadelphia man had apartments that cost \$1200 a month. One of the features of the winter colony was a livery-stable man who acted as chaperone, guide and friend in need to the horseback riders. He got in the habit of going along to look after unmanageable horses which the women insisted upon riding. Now he has come to be the principal part of the morning ride.

Every morning during the season lines of spirited saddle horses were to be seen tied-up in front of the Green. When the party came out, the question was always asked of the philosopher guide, "Where do we go this morning?" He took them wherever his fancy dictated.

## Accurate Remedies...

I do not send my patients to drug stores with prescriptions to be filled. My own private laboratory is stocked with a full assortment of laboratory is stocked with a full assortment of the finest assayed and standardized drugs, and all remedies are supplied to patients entirely free of cost. By this plan the cost of a cure is lessened, the patient avoids embarrassment, and I am always able to know that the medicines used are accurately compounded and of the exact potency required. Accuracy is so essential a thing in the treatment of men's diseases that by this system alone I am able to keep insufficiently close touch with all details and obtain the best possible results in all cases.

### Contracted Disorders.

To but partially cure a contracted disease is aimost as dangerous as to allow it to go untreated. Unless every particle of infection and inflammation is removed, the probability exists that the disease will gradually work its way into the general system. Still greater is the danger of the prostate gland becoming chronically inflamed, which always brings partial or complete loss of sexual power. Perhaps is per cent. of the cases of so-called "weakness" are a direct result of some improperly-treated contracted disease. During the past five years have treated over 600 cases of contracted disorders and have effected an absolutely thorough and ware functed and the contracted disease. The contracted disorders and have effected an absolutely thorough and ware functed and the contracted disorders and have effected an absolutely thorough and ware functed and the contracted disorders and have effected an absolutely thorough and ware functed and the contracted disorders and have effected an absolutely forough the developments and the contracted disorders of treatment require in producing even doubtful results.

### "Weakness."

To produce temporary activity of the functions in cases of so-called weakness is a simple matter, but to permanently restore strength and vigor is a problem that but few physicians have solved. I never treat for temporary effects. Under my system of treatment, every bit of improvement is a problem that but few through my success in effecting permanent cures, been convinced of the fact that prematureness, loss of power, etc., are but symptoms resulting from chronic inflammation or congestion in the prostate gland, none have as yet been able to duplicate my cures. My system of local treatment is the only effective means yet known for restoring the prostate to its normal state, which always resultion responsible for the functional disorder is entirely removed. It is the only kind of a cure a patient is the only kind of a cure a patient is the only kind of a cure a patient

### Contagious Blood Poison.

Contagious blood poisoon is commonly called the king of all venereal diseases may be either hereditary or contracted. Once the system is talinted with it the d may manifest itself in the form of scrofula, ecsema, rheumatic pains, stiff or st joints, eruptions or copper spots on the face or body, little ulcers in the mouth the tongue, sore throat, swollen tonsils, falling out of the hair or eyebrows, and is leprouslike decay of the fiesh and bone. If you have any of these or similar torns, you are cordially invited to consult me immediately. If I find your fear unfounded, I will quickly unburden your mind. But if your constitution is in with the virus I will tell you so frankly and show you how to get rid of it. My call treatment for contagious blood poison is practically the result of my life and is indoreed by the best physicians of America and Europe. It contains no dus drugs or injurious medicines of any kind. It goes to the very bottom of the ease, and forces every particle of impurity. Soon every aign and symptom of poison disappears completely and forever. The blood, the tissues, the fiesh, bones the whole system are cleaned, purified and restored to perfect health, and the pipepared new for the duties and pleasures of life.

I have published a treatise on men's disorders, with beautiful colored plates, will be mailed free of charge on application.

## Boys' Clothing Backed by a GUARANTEE Any Unsatisfactory Suit Exchanged for a New One

It takes a boy to test the wearing quality of clothing. We don't expect a boy who buys a suit at Hamburger's to sit around for an ornament, but rather to enjoy a boyish life. Our boys' clothing is so well made and of such superior quality that they will last a long time. If any parent is not satisfied with the way they wear under ordinary usage, return the faulty suit and get a new one.
